

Michael W. Bischoff AIA, LEED Partner

Guided by dedication to the craft of building and a commitment to environmental responsibility, Michael Bischoff shapes lasting and responsible built environments that eloquently respond to their contexts and actively engage their users and communities.

EDUCATION

Harvard Graduate School of Design
MArch 1988

University of California at Berkeley
BArch 1984

PROFESSIONAL EXPERIENCE

Pei Cobb Freed & Partners
Partner 2009–
Professional Staff 1992–2009

Rafael Moneo, Architects, Madrid
1990–92

SOM, San Francisco
1988–90

Registered Architect

California, Maryland, New York

AFFILIATIONS

American Institute of Architects, Member
CarbonPositive Summit, Chicago, 2019

Building Stone Institute, Director, 2013–

Franklin Street Works, Stamford,
Connecticut, Director, 2014–

United States Green Building Council
LEED Accredited Professional

Michael was an early proponent of sustainable strategies, an interest developed early in his career in conjunction with his work on the pioneering American Association for the Advancement of Science headquarters, the first building in Washington DC to be certified LEED Platinum EB, and the ABN AMRO Bank Head office in Amsterdam, named one of the AIA Top Ten Green Buildings of 2001. He has continued to guide the firm's sustainable design initiatives, from the refinement of building enclosure technologies to integration of analytical tools within the design process, while directing PCF&P's participation in the AIA 2030 Commitment.

With broad leadership experience on significant large-scale projects in Europe, Asia, Africa, and the Middle East, he directs the firm's ongoing efforts in India, which include the World Towers residential complex in central Mumbai, recipient of a Green Good Design Award; One Lodha Place, the city's first Class A office tower, in progress nearby; and two major office campuses on the outskirts of Bengaluru, also home to the recently completed Goldman Sachs India headquarters, a 21-acre, LEED Platinum-designed office campus.

Much of Michael's practice has focused on the creation of meaningful and lasting campus environments for institutional, university, and corporate clients. He has served as a lead designer for projects ranging from bank headquarters and corporate campuses in Kansas City, Amsterdam, and Orange County to research centers at Drexel University and Virginia Tech and dormitories at Princeton.

A native Californian, Michael has played a central role in many of the firm's West Coast projects, beginning in 1999 with the Capital Group Companies Orange County Campus in Irvine. He has served as a lead designer and partner-in-charge for numerous California projects, including headquarters and investment office buildings at Newport Center and Irvine Spectrum Center, One La Jolla Center, and Santa Clara Square in Silicon Valley. Two projects under way—Vanir Tower, in Sacramento, and the Landmark, a mixed-use development in Irvine—are poised to transform the commercial centers of their respective cities by revitalizing the urban fabric at crucial gateway sites. Finally, his recently opened Marion Anderson Hall provides state-of-the-art teaching and event spaces for the UCLA Anderson School of Management, housed in a highly sustainable building that extends and renews the visual language of the existing complex and surrounding campus.

In addition to his professional practice, Michael maintains an active role within the academic community and has served as a design critic at Harvard, Princeton, Parsons School of Design, Pratt Institute, and the City College of New York.

SELECTED AWARDS

Certificate of Merit for Excellence in the Study of Architecture, American Institute of Architects, 1988

Alumni Scholar, University of California at Berkeley, 1984

Phi Beta Kappa, University of California at Berkeley, 1984

SELECTED PRESENTATIONS

Sustainable Approaches to Envelope Design

Keynote address, Zak World of Facades India Conference, Mumbai, 2020

The Green New Deal in New York

Zak World of Facades, North America Conference, New York, 2019

Investment, Acquisition, Development & Design Strategy

New York Retail Annual Conference, New York, 2019

Urban Aggregation: Shaping of Pedestrian-Focused Public Space

Council on Tall Building and Urban Habitat, International Conference, Sydney, Australia, 2017

The 8x8 Tower: Sustainable Citizenship for the 21st Century

Council on Tall Building and Urban Habitat, International Conference, Shanghai, 2014

520 Newport Center Drive

AIA Orange County, 2014

One Campus, Two Buildings: the Friend Center and Butler College at Princeton University

Ball State University, Muncie, Indiana, 2013

650 Newport Center Drive

AIA Orange County, 2013

AIANY Around Manhattan Architecture Tour

Boat tour docent, 2012–13
Development Team, 2012

Brick in Architecture: Architect and Mason Interaction for a Better Project

AIA New York, 2011

SELECTED PROJECTS

University Town Center East District Sarasota, Florida, in progress

MFAR Whitefield Office Campus Bengaluru, India, in progress

MFAR Hub Bengaluru, India, in progress

Vanir Tower Sacramento, California, in progress

Spectrum Terrace Irvine, California, phase I: 2019; phases II and III in progress

500 Spectrum Center Irvine, California, in progress

Tower 45 Repositioning New York, in progress

Spectrum Point Irvine, California, in progress

Marion Anderson Building, UCLA Anderson School of Management Los Angeles, 2020

The Landmark Irvine, California, schematic design completed 2018

Santa Clara Square Phase II Santa Clara, California, 2017

400 Spectrum Center Irvine, California, 2017

200 Spectrum Center: Mazda U.S. Headquarters Irvine, California, 2015

One La Jolla Center La Jolla, California, 2015

520 Newport Center Drive Newport Beach, California, 2015
